

The LITTERER Group has decades of experience in the field of coating. Our staff members possess the corresponding expert knowledge and qualifications to prepare and apply the various coating systems while observing workplace safety and environmental protection regulations. Our services are subject to strict quality monitoring and are completely documented without gaps.

If required we would be pleased to work out a suggestion for a solution to match the product.

#### **SERVICES:**

- Coatings employing the two-component airless spraying process
- Hot epoxy-resin coatings
- Polyurethane coatings sprayed on hot or cold
- Vinyl-ester glass-flake coatings
